

a day with un día con las aves the birds

Ciencia Comunitaria y el Audubon Navidad Conteo de Aves
Community Science & the Audubon Christmas Bird Count

A traveling exhibit exploring community science and the Audubon Christmas Bird Count, *A Day with the Birds* aims to increase awareness of, appreciation for and conservation of global bird populations.

Featuring interpretation in English and Spanish, visitors will:

- **Engage** with stories of people who count birds;
- **Get acquainted** with some of their local winter birds;
- **Be inspired** to care about and act on behalf of the birds that visit and live in their communities.

Curated by experts and crafted to appeal to audiences of all ages, *A Day with the Birds* will engage the minds and the hearts of your visitors.

Join the flock!

exhibit installation

Kauffman Museum, Winter-Spring 2024

Space Requirements: ~1000 sq ft

Cost: \$7,000 for up to 8 weeks plus inbound shipping. Additional weekly commitments negotiable.

Installation Assistance: One staff person arrives with the exhibit to assist host venue with installation.

Environment and Security: Host venue to assure a museum quality exhibit environment, with stable temperature and humidity, appropriate light levels and adequate security.

Crates and Storage: Designed around a modular system, the shipping crates serve as the exhibit units so there are a limited number of crates that require storage.

Special thanks to these grantmaking organizations for their support of *A Day with the Birds*, as well as Kauffman Museum members and friends.
